PROFILE
UI & Visual Designer. I turn dense content into interfaces people can scan, trust and act on. 5 years designing editorial systems for 12+ publishers. Driven by a deep interest in marketing strategy, I bridge the gap between traditional visual excellence and digital innovation, creating intuitive, accessible, and user-centered interfaces. Leveraging my expertise in visual hierarchy and information architecture, I use Prompt Engineering and automation to streamline research and prototyping. I'm now looking for contexts where design and measurable outcomes are treated as the same problem.

DESIGN TOOLS
- Software: Adobe Creative Suite (InDesign, Illustrator, Photoshop), Figma, Affinity Suite.
